

How Jurors are Summoned

Names of grand and petit jurors serving in this Court will be selected by randomized procedures from the merged lists of licensed drivers, holders of state identification cards, and registered voters. The names of registered voters will be obtained from the general election as maintained in the books, lists, or automated voter registration systems of each county, as being the correct number by the Secretary of State. The names of licensed drivers and state identification card holders will be obtained from the lists or automated systems from the Department of Motor Vehicles. Such lists, as described above, represent a fair cross section of the community within the district.
